

## Orasi Hosting Services - Micro Focus QC

For more than 16 years, Orasi Software has consistently helped customers successfully implement and integrate software testing environments to reduce the cost and risk of software failures. From initial implementations to enterprise rollouts, Orasi provides the expertise and experience to accelerate your testing return on investment.

Orasi Hosting Services provides the expertise and trust necessary for organizations that are frustrated with the internal barriers preventing their quality assurance (QA) organization from gaining the most value from Micro Focus Quality Center (QC). Leveraging the security, performance, and availability of Microsoft Azure to host Micro Focus QC in the cloud, Orasi Hosting Services is able to provide your QA organization the flexibility it needs to adapt to changing priorities, as well as the peace of mind knowing your data is secure.

With three tiers of service—hosting only, premium, and enterprise—Orasi is able to meet any customer’s hosting requirements. And, combined with Orasi’s award-winning support and services, Orasi is able to provide its customers with a single point of contact for all your Micro Focus QC requirements.
