

Micro Focus Business Process Testing Essentials

An Orasi Training Course

Course Overview

Does your organization have an automated testing strategy or framework to help decrease script creation and maintenance costs? Micro Focus's automated functional testing software Micro Focus Unified Functional Testing (UFT) works together with Micro Focus Business Process Testing (BPT), which facilitates high script reusability, dynamic objects, and low script maintenance.

Orasi™ Software, Inc. delivers a hands-on Micro Focus BPT training class to help organizations lay the foundation for a highly reusable and modular test automation framework using Micro Focus BPT components. Micro Focus BPT Essentials is a training opportunity for Micro Focus BPT automation engineers and testers to gain a foundation for building Micro Focus BPT tests in Micro Focus UFT and Micro Focus ALM and is presented with a balance of lecture and hands-on exercises.
