

Micro Focus BPT: Scripting Workshop

An Orasi Training Course

Course Overview

Does your organization have an automated testing strategy or framework to help decrease script creation and maintenance costs? Micro Focus's automated functional testing software Micro Focus Unified Functional Testing (UFT) works together with Micro Focus Business Process Testing (BPT), which facilitates high script reusability, dynamic objects, and low script maintenance.

Orasi™ Software, Inc. delivers a hands-on Micro Focus BPT workshop to help organizations lay the foundation for a highly reusable and modular test automation framework. Micro Focus Business Process Testing Scripting Workshop is a training opportunity for Micro Focus BPT automation engineers who are looking for guidance on how to build an effective and efficient automation framework and is presented through lecture and an interactive workshop.

Duration: 3 days

Class Limit: 10 students

Labs: 70% of class time

Prerequisites:

- Micro Focus UFT GUI End User Training and/or Micro Focus UFT API End User Training or equivalent
- Micro Focus Business Process Testing Essentials

Target Audience

- Micro Focus BPT Automation Engineers

Related Classes

- Micro Focus UFT GUI End User Training
- Micro Focus UFT API End User Training
- Micro Focus Business Process Testing Essentials

Goals

- Understand the Micro Focus BPT automation framework methodology
- Properly plan and set up the foundation of an Micro Focus BPT automation framework
- Develop an Micro Focus BPT automation framework maintenance plan
