

Orasi Customer Support

Your Alternative for Micro Focus Software Support

You now have a choice in support providers for Micro Focus testing tools. Orasi Software, through its partnership with Micro Focus, will provide responsive, local software support for test management, test automation, and performance testing tools. A trusted business partner for automation implementation and quality assurance process improvement, Orasi will also be your single point of contact for issues that are escalated to tier-2 support within the Micro Focus support organization. Support hours are Monday through Friday, 9:00 a.m. to 7:00 p.m. Eastern time.

Orasi support engineers are true experts in the Micro Focus product line and key related technologies. Support engineers have full accountability for the resolution of an assigned case, acting as the customer's single point of contact and coordinating the efforts of local support teams, and Micro Focus Support.
